The book is divided into three parts. The first part provides a historical overview of electronic warfare and intelligence gathering, from the early days of radio communications to the present day. The second part examines the development of specific electronic warfare and intelligence gathering technologies, such as radar, sonar, and SIGINT. The third part discusses the use of electronic warfare and intelligence gathering in

modern warfare, including the role of these technologies in the Gulf War, the Kosovo War, and the War on Terror.

The Milcom Files: Monitoring Times, Volume 1998-2006, is a valuable resource for anyone interested in the history of electronic warfare and intelligence gathering. This book provides a comprehensive overview of these technologies and their role in modern warfare, and it is essential reading for anyone who wants to understand the future of these technologies.

Table of Contents

- Part 1: A Historical Overview of Electronic Warfare and Intelligence Gathering
- Part 2: The Development of Specific Electronic Warfare and Intelligence Gathering Technologies
- Part 3: The Use of Electronic Warfare and Intelligence Gathering in Modern Warfare
