About the Book

The Proceedings of the 20th American Peptide Symposium is a valuable resource for researchers in the field of peptide science. This volume contains the latest advances in peptide chemistry, biology, and applications. The symposium was held in San Diego, California, from June 12-16, 2016. The meeting was attended by over 1,000 scientists from around the world. The symposium featured a wide range of presentations, including plenary lectures, invited talks, and poster presentations. The topics covered

included peptide synthesis, peptide structure, peptide function, and peptide applications.

Table of Contents

- Peptide Synthesis
- Peptide Structure
- Peptide Function
- Peptide Applications

Audience

The Proceedings of the 20th American Peptide Symposium is intended for researchers in the field of peptide science. This volume will be of particular interest to scientists who are interested in the latest advances in peptide chemistry, biology, and applications.

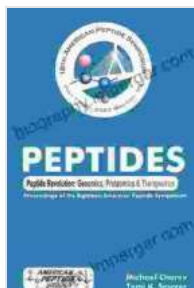

Reviews

"The Proceedings of the 20th American Peptide Symposium is a valuable resource for researchers in the field of peptide science. This volume contains the latest advances in peptide chemistry, biology, and applications. The symposium was well-organized and the presentations were of high quality." - *Journal of Peptide Science*

"The Proceedings of the 20th American Peptide Symposium is a must-have for any researcher in the field of peptide science. This volume contains the latest advances in peptide chemistry, biology, and applications. The symposium was a great success and the presentations were of high quality." - *Peptide Research*

Free Downloading Information

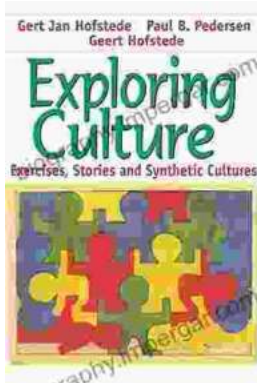

The Proceedings of the 20th American Peptide Symposium is available from Springer. To Free Download a copy, please visit the Springer website or contact your local bookseller.
