A Treasure Trove of Expert Insights

Edited by the renowned scholars Richard N. Loulou and Ian W.H. Parry, this comprehensive volume brings together a collection of groundbreaking essays from leading experts in the field. Each chapter delves into a specific aspect of environmental and resource policy, offering in-depth analysis and practical recommendations for addressing the complex challenges confronting policymakers and society.

From climate change mitigation to sustainable energy development, water resource management to biodiversity conservation, The RFF Reader covers the entire spectrum of environmental and resource issues. It provides a comprehensive understanding of the economic, social, and political dimensions of these challenges, empowering readers with the knowledge and tools to make informed decisions.

Key Features and Benefits

- **Comprehensive Coverage:** Explores a wide range of environmental and resource policy topics, providing a comprehensive understanding of the field.
- **Expert Contributors:** Features essays from leading scholars and practitioners, ensuring the highest level of expertise and credibility.
- **Policy-Oriented Focus:** Presents practical recommendations and policy frameworks for addressing environmental and resource challenges.
- **Interdisciplinary Approach:** Combines insights from economics, ecology, political science, and other disciplines to provide a holistic understanding of environmental and resource policy.
- **Invaluable Resource:** An essential reference for policymakers, researchers, students, and anyone interested in environmental and resource policy.

Chapter Highlights

The RFF Reader is divided into seven parts, each focusing on a different aspect of environmental and resource policy:

1. **The Scope of Environmental and Resource Policy**
2. **Markets and Environmental Policy**
3. **Environmental Quality and Health**
4. **Climate Change**
5. **Energy**
6. **Water**
7. **Land Use and Natural Resources**

Within each part, the chapters cover a wide range of specific topics, including:

- Cost-Benefit Analysis of Environmental and Resource Policies
- The Role of Property Rights in Environmental Protection
- Incentivizing Conservation through Market Mechanisms
- The Economics of Climate Change Mitigation
- Renewable Energy Technologies and Policy
- Water Scarcity and Management Strategies
- Sustainable Land Use and Biodiversity Conservation
