9 Questions to Improve Metacognition

By Darren Drury
d@darrendrury.com

- Is this similar to a previous task?
- What do I want to achieve?
- What should I do first?
- Am I on the right track?
- What can I do differently?
- Who can I ask for help?

反思

- What worked well?
- What could I have done better?
- Can I apply this to other situations?

Inspiring a Passion for Science in Every Student

Beyond its practical value for educators, "Trends in Current Research" also serves as an inspiration to future generations of scientists. By showcasing the excitement and relevance of science, the book ignites a passion for scientific inquiry in young minds. Its engaging narrative and thought-provoking content create an

immersive experience that fosters a deep understanding of the scientific process and its impact on the world we live in.
